CS Guillotine Shears

Exceptional Value for the Investment

The LVD-HD CS shears are manufactured exclusively for LVD by Hubei Sanhuan Metalforming Machine Tool Co., Ltd., LVD's licensee in the People's Republic of China since 1981.

CS Series shears are built to LVD's specifications and high quality standards, utilizing electronic, electrical, hydraulic and pneumatic components that meet our stringent accu-

racy and reliability requirements. Every shear is inspected by an LVD quality engineer prior to shipment.

CS shears are an outstanding value, combining LVD quality with Hubei Sanhuan's low-cost manufacturing environment for a cost-efficient product that ensures optimum quality and reliable performance.
